

Motion to SFQ congress 2017 – Addition to statutes about election committee.

Background to motion

According to the statutes the congress are to appoint the election committee for the following year. Every year the question about the new election committee is raised without any preparations which leads to a frantic search by attending representatives and no time for consideration for eventual candidates.

The organisation RFSL Youth resolve this issue by letting the active election committee gather a list with names of people who are interested in becoming part of the following election committee. The existent election committee do not put any value or opinions on the list of candidates but simply present it as is to the congress which are the ones to make the decision. During the course *Juridik I Ideella Föreningar* by Karin Källström (2017-10-27) I raised this as a solution and it was approved of as one way to have a pool of candidates without it being considered a conflict of interest.

In the light of this I propose the following add-on to SFQ statutes §19:

Valberedningen sammanställer även en lista över personer som önskar ingå i följande års valberedning.¹

Elias Olsson, president of SFQ 2017

¹ Since the Swedish statutes are the legal document the proposed change is in Swedish. Translated it says: The election committee will also compile a list of people who wish to be included in the election committee the following year.
